

IEEE Workshop: How to Get Published - Italy

Presented by:
Eszter Lukács
IEEE Client Services Manager
e.lukacs@ieee.org

About IEEE

- A leading authority and trusted voice in a wide variety of areas including aerospace, artificial intelligence, computing, power and energy, telecommunications, and many more
- A public charity dedicated to advancing technology for the benefit of humanity
- World's largest technical professional organization with over 480,000 members globally
- Core areas of activity:
 - Membership organization
 - Conferences organizer
 - Standards developer
 - Publisher of leading journals, conferences, standards, eBooks, and eLearning
- IEEE *Xplore* Digital Library by the numbers:
 - Nearly 7 million total documents
 - More than 30 million downloads per month
 - Over 10 million unique users each month

140 YEARS
*Celebrating 140 Years of
Advancing Technology for
Humanity*

IEEE Xplore Digital Library

The source that the top research organizations in the world rely on to fuel imagination and drive innovation

- IEEE journals, conference proceedings and standards plus select partner content dating as far back as 1884
- Nearly 7 million documents, over 30 million downloads per month, and over 10 million unique users
- Over 1.4 million articles from over 200 top-cited IEEE journals, magazines, and transactions
- Over 4.8 million conference papers from as far back as 1936, with over 250,000 added each year
- Approx. 5,000 approved and published IEEE standards
- eBook collections covering emerging topics in engineering, computer science, AI, telecommunications, and more
- IEEE eLearning Library with the latest in topics such as Artificial Intelligence, 5G, IoT, and more!

<https://ieeexplore.ieee.org/>

IEEE Publications: Highest Quality, Most Cited

IEEE Publications continue to lead...

June 2025 Journal Citation Reports™ from Clarivate Analytics:

- ▶ 24 of the 30 top journals in Electrical & Electronic Engineering
- ▶ 23 of the top 30 journals in Telecommunications
- ▶ 9 of the top 20 journals in Computer Science, Artificial Intelligence
- ▶ 5 of the top 10 journals in Computer Science, Information Systems
- ▶ 3 of the top 5 journals in Imaging Science
- ▶ 3 of the top 5 journals in Automation & Control Systems
- ▶ #1 ranked JIF in Automation & Control, Cybernetics, Imaging Science, Information Systems, Remote Sensing and Telecommunications

June 2025 CiteScore™ Report by Scopus:

- ▶ 8 of the top 20 journals in **Electrical Engineering**
- ▶ 9 of the top 20 journals in **Computer Software**
- ▶ 8 of the top 20 journals in **Computer Hardware**
- ▶ #1 ranked in **Electrical Engineering, General Computer Science, Applied Mathematics, Computational Theory and Mathematics, and Earth and Planetary Sciences**

For more information, visit: www.ieee.org/citations

IEEE Publications: Stay Current with Quality, Trusted Resources

Base your research on a quality resource you can trust.

Latest studies reinforce that IEEE has the **top cited publications** and **more top quartile publications** in IEEE fields of interest than any other publisher.

Journal Impact Factor™ (JIF) is one of several metrics used in the technical community to compare the impact of scholarly research journals. In the most recent JCR, a wide range of IEEE publications ranked highly in multiple categories.

Citation Ranking by Journal Impact Factor:

- 24 of the top 30 journals in **Electrical and Electronic Engineering**
- 23 of the top 30 journals in **Telecommunications**
- 9 of the top 20 journals in **Computer Science, Artificial Intelligence**
- 5 of the top 10 journals in **Computer Science, Information Systems**
- 3 of the top 5 journals in **Imaging Science**
- 3 of the top 5 journals in **Automation and Control systems**
- 3 of the top 5 journals in **Computer Science, Cybernetics**
- 3 of the top 5 journals in **Computer Science, Hardware & Architecture**

In addition, **IEEE journals ranked No. 1** in JIF in several categories including Automation and Control, Imaging, Information Systems, Telecom and more!

For more details, visit:
www.ieee.org/citations

IEEE Leads in Top Quartile Ranked Publications

IEEE as a percentage of top quartile publications across key fields of Interest*

Source: 2024 Journal Citation Reports from Clarivate, released June 2025

Rely on IEEE to keep your teams up to date on the latest developments in AI

5 of Top 10 Cited Journals in AI*

- #2 IEEE Trans. on Pattern Analysis and Machine Intelligence
- #6 IEEE Trans. on Evolutionary Computation
- #8 IEEE Trans. on Fuzzy Systems

AI Patents Cite IEEE More Than Any Other Publisher**

- 31% of all AI patent references are to IEEE publications

Most searched content in IEEE Xplore

- Top Searches: Machine Learning, AI, Deep Learning
- Over 500,000 articles related to these topics
- Many new eBooks & elearning resources related to AI

Leading the Way in AI & Ethics Standards & Certification

- Addressing Ethical Concerns during System Design (7000 series)
- Transparency of Autonomous Systems (7001)
- Course Program: AI Standards Roadmap
- IEEE CertifAIEd Assessor Training - New Program on Ethical AI

Your IEEE *Xplore* Subscription

The IEEE *Xplore* Digital Library is your gateway to one-third of the world's technical literature:

- Unlimited full-text access
- Full-text IEEE content published since 1988, with select content dating back to 1884
- Approximately 200 IEEE Journals, Transactions, and Magazines, including early access documents
- Proceedings from IEEE, IET and VDE Conferences
- Over 3,000 active and approved IEEE Standards
- IEEE Standards Dictionary Online

The IEEE Xplore logo is displayed in white text on a dark blue rectangular background. The word "IEEE" is in a bold, sans-serif font, and "Xplore" is in a stylized, italicized font with a registered trademark symbol.

<https://ieeexplore.ieee.org>

IEEE Research Powers Patents

IEEE is the most-cited publisher in new patents from top patenting organizations.

- Patented technologies are increasingly referencing scientific articles to provide the science base for new inventions
- A 2024 study revealed that IEEE publications received **nearly 3X more** citations than any other publisher.
- Patent referencing to IEEE **increased over 864%** since 1997
- Inventions that **build upon IEEE publications** are more likely to be cited in the future
- **IEEE is the #1 most referenced publisher** in AI, Blockchain, Computer Hardware, Computer Software, Cybersecurity, IoT, Power Systems, Semiconductors, Renewable Energy (Wind & Solar), Telecom and more.

Number of U.S. Patent References from Top 50 Companies to Top 20 Publishers

Selecting the right publication

Publishing Outlets: Conference or Journal?

- ▶ **Conferences** are for preliminary findings of ongoing research
- ▶ **Journals** are for fully-developed findings of completed research
- ▶ **Both** are peer-reviewed and checked for plagiarism before publication
- ▶ **Open Access** is only available for journals at this time

Note:

Authors are expected to present their findings in person at a conference in order to be published in the conference proceedings

Pick Your Target

- ▶ Select just **one** target publication; concurrent submissions are unethical
- ▶ Start by looking at the publications cited in your references
- ▶ Ask your supervisor or other colleagues experienced in publishing for recommendations
- ▶ Read the Aims & Scope of your potential targets to ensure your article is a good fit
- ▶ Check out the IEEE Publication Recommender

Aims & Scope

The *IEEE Transactions on Fuzzy Systems* publishes high quality technical papers in the theory, design, and application of fuzzy systems. Readers are encouraged to submit papers which disclose significant technical knowledge, exploratory developments and applications of fuzzy systems. Emphasis is given to engineering systems and scientific applications. The Transactions also contains a letters section which includes information of current interest, and comments and rebuttals submitted in connection with published papers.

Preparing Your Paper

Manuscript Files

Manuscript Files

We accept Microsoft Word, plain text, and LaTeX files. If you will be submitting LaTeX files, please use the [IEEE LaTeX Analyzer](#) before submitting to avoid delays and ensure all requirements are met.

You can find the appropriate template using the [IEEE Template Selector](#). However, please note that templates do not reflect the final format; the published paper will appear as formatted by the publication staff.

- » **Magazines:** For [IEEE Computer Graphics and Applications](#), using an article template is required. For all other magazines, using an article template is not required but is encouraged.
- » **Journals:** Using an article template is required for journal submissions.

All manuscript files will be converted to PDF upon submission. Files cannot exceed 350 MB.

Length and Reference Limits

Note: Supplemental material is not included in these word counts.

Magazines

- » Word count and reference limits vary by magazine. Please click below for specific information.
 - » [Computer](#)
 - » [Computing in Science & Engineering](#)

Share Your Code and Data

Increase the impact of your work by sharing your code and data for others to view, build upon, and reuse. Benefits to sharing your data and code include:

- » Improving the discoverability of your data by hosting it in an easily accessible repository.
- » Making your data citable with a unique Digital Object Identifier (DOI) for your dataset.
- » Increasing the pace of scientific advancement by enabling other researchers to build upon your work.
- » Following best practices of reproducible research by archiving your article's underlying data.
- » Ensuring long-term preservation and accessibility of your data through the repository's archival curation.

Code Ocean: IEEE works with [Code Ocean](#), a cloud-based computational reproducibility platform, to make code discoverable. It allows authors to further enhance the visibility and impact of their research by enabling them to share their code on Code Ocean so that readers can browse, view, run, and experiment with the code.

IEEE DataPort: [IEEE DataPort](#), an online repository of datasets and data analysis tools, makes your datasets discoverable. IEEE DataPort is fully integrated with [IEEE Xplore®](#), which will include a link to the dataset. The repository accepts all types of datasets up to 2 TB and provides a DOI for easy citation.

About Journal

Aims & Scope

The IEEE Transactions on Learning Technologies covers all advances in learning technologies and their applications, including but not limited to the following topics: innovative online learning systems; intelligent tutors; educational games; simulation systems for education and training; collaborative learning tools; learning with mobile devices; wearable devices and interfaces for learning; personalized and adaptive learning systems; tools for formative and summative assessment; tools for learning analytics and educational data mining; ontologies for learning systems; standards and web services that support learning; authoring tools for learning materials; computer support for peer tutoring; learning via computer-mediated inquiry, field, and lab work; social learning techniques; social networks and infrastructures for learning and knowledge sharing; and creation and management of learning objects.

TLT publishes archival research papers and critical survey papers. A paper must either describe original research or offer a critical review of the state of the art in a particular area. Papers concerned with evaluation of technology are only appropriate if the technology itself is novel or if significant technical insights are provided. Please be sure to visit the [TLT taxonomy list](#).

Publication Fees

This publication is hybrid, meaning that it is supported by subscriptions and applicable article processing charges (APCs). Although there is no cost

Writing the Article

Components of a Typical Article

Title	Specific, concise, descriptive
Abstract	Describe research in 250 words or less
Introduction	Novelty, goal, and motivation
Approach and Results	What you did, how you did it, and what results you obtained
Discussion and Conclusion	What your results mean and areas of further study
References	Proper attribution of previous work

Peer review process and what editors and reviewers are looking for

What is Peer Review?

Peer review is “the critical assessment of manuscripts submitted to [publications] by experts who are not part of the editorial staff.”¹

¹International Committee of Medical Journal Editors

How It Works

Publishing Open Access Articles Under the Care Crui Agreement

- ▶ CRUI – Conference of Rectors of Italian Universities has an agreement with IEEE that enables researchers in Italy to publish a limited number of articles without open access fees (APCs) in IEEE hybrid journals.
- ▶ Eligible Authors: The **corresponding author must be affiliated with one of the participating institutions.**
- ▶ **Eligible Titles: IEEE hybrid journals**
- ▶ Eligible Articles: Original research articles (Regular Paper, Review Paper, Brief, Invited, Survey) which are written by Eligible Authors and which are editorially accepted for publication in Publisher's **hybrid journal** with an acceptance date during the term of the contract, and which are of one of the following article types:
 - ▶ The agreement applies to all eligible articles **accepted for publication between 1 November 2025 to 31 December 2027.**
 - ▶ 900/1000 APC per year to be shared among the 60 institutions
 - ▶ It is recommended for authors to select the CC BY 4.0 license. The open access funding request will be approved by an administrator in the library.
 - ▶ Overlength page charges or color fees are not covered by the agreement and will be charged to authors.

IEEE's Evolving Open Access Program

To help authors gain maximum exposure for their groundbreaking research and application-oriented articles, IEEE offers many options for open access (OA) publishing, all designed to meet the varying needs of our authors throughout their careers.

OA Publishing Options

- **Hybrid Journals – 180+ journals and magazines spanning an array of technology fields.**
- **Fully Open Access Topical Journals – 30+ titles and more coming soon**
- **Multidisciplinary OA journal - IEEE Access**
 - IEEE's largest open access journal, over 100,000 articles since 2013
 - Highly cited journal in a range of fields
 - Rapid yet rigorous peer review process of 4 to 6 weeks.

New Titles Coming in 2026:

- With the over 150
- IEEE Sensors Magazine (Hybrid)
 - IEEE Robotics and Automation Practice (Hybrid)
 - IEEE Transactions on Robot Learning (Hybrid)
 - IEEE Journal on Wireless Power Technologies (Hybrid)

Option 3 – On IEEE Open

Overlength and color charges are not included in the agreement

- **Overlength and color charges may still apply and are not included in this agreement and must be settled by the author.** The author will receive separate notifications about these costs from CCC and must follow the instructions in the email:
 - All **Overlength and color charges** are handled through CCC RightsLink for Scientific Communication (RLSC)

- More information in general on article processing charges for authors:
<https://journals.ieeeauthorcenter.ieee.org/your-role-in-article-production/about-potential-article-processing-charges/>

High Level Workflow for Authors

Step 1

Paper Submission

& Peer Review

Step 2

IEEE Electronic
Copyright Form

Author will sign the copyright form, and hybrid authors will select OA or traditional publishing in this step.

Step 3

Process APC
funding requests.

Authors pay any applicable page charges.

Submitting Agent

☐ I'm an Author of this manuscript

☐ I'm not an Author of this manuscript

Your email `jacobs.s@ieee.org` is not used on Author List above, so we need to know more about you.

Corresponding author adds affiliation data for all authors.

The institution entered will be used to match the author with an institutional OA agreement with Ringgold API.

The IEEE logo, consisting of a blue diamond shape with a white stylized 'I' and 'E' inside, followed by the letters 'IEEE' in a bold, blue, sans-serif font.

Submission – Step 5

Author confirms affiliation, with Ringgold matching integrated

Affiliations

Help us find the organization that best matches each affiliation you provided. We use Ringgold as our affiliation database. [Learn more.](#)

Your selections are for internal purposes and will not be published.

✓ Matched

Jinzhou Central Hospital, Jinzhou 121000, P.R. China

What will be published

You confirmed from your manuscript:

Jinzhou Central Hospital, Jinzhou 121000, P.R. China

If accepted for publication, your affiliation will be published as shown above.

Choose best match

☒ JINZHOU WOMEN AND CHILDREN'S HOSPITAL
JINZHOU, LIAONING, CHINA

☐ JINZHOU CENTRAL HOSPITAL
JINZHOU, LIAONING, CHINA

☐ JINZHOU CITY HEALTH COMMISSION
JINZHOU, LIAONING, CHINA

OR

Search for best match

You only need to select your parent organization, you do not need to match your department or other subdivision

Example: select *University of Oxford*, not *University of Oxford Department of Economics*

Find Organization

Start typing to find your organization

Articles can match a RLSC OA profile based on institutional affiliation

If author has multiple affiliations, they will be asked to identify a Ringgold for each affiliation to maximize match possibilities.

[← Back to Progress Board](#)

Match Organizations

We will use the best match from our database to determine if your manuscript is eligible for special benefits

Funders

Is this research supported by funding?

☐ No funding was received for this research

☐ Yes, this research has one or more funders

You should match all funders for associated research with the Funder Registry for transparency into research funding and its outcomes. This helps us ensure that you're compliant with any funder mandates. [Learn more about Funder Registry.](#)

Affiliations

Help us find the organization that best matches each affiliation you provided. We use Ringgold as our affiliation database. [Learn more.](#)

Your selections are for internal purposes and will not be published.

✗ Not Matched

Jinzhou Central Hospital, Jinzhou 121000, P.R. China

What will be published

You confirmed from your manuscript:

Jinzhou Central Hospital, Jinzhou 121000, P.R. China

If accepted for publication, your affiliation will be published as shown above.

Choose best match

☐ JINZHOU WOMEN AND CHILDREN'S HOSPITAL
JINZHOU, LIAONING, CHINA

☐ JINZHOU CENTRAL HOSPITAL
JINZHOU, LIAONING, CHINA

☐ JINZHOU CITY HEALTH COMMISSION
JINZHOU, LIAONING, CHINA

Step 3: Select the appropriate publication agreement

➤ Please select a publishing option:

☒ Traditional Publishing Option:
Requires authors to transfer copyright to IEEE.
For more information see sidebar.

☐ Open Access Publishing Option:
Authors provide IEEE with a choice of Creative Commons licenses to publish their articles openly on IEEE Xplore. This requires a payment of an Article Processing Charge to our 3rd party vendor (CCC-Rightslink)

☐ I agree to pay the Article Processing Charge.

Notice to authors: Please visit <https://open.ieee.org/cc-by-requirements/> for specific Creative Commons license requirements

Continue

About Open Access Publishing Option:
Your article may be published either in the Traditional or Open Access publishing model.
Open Access publishing requires payment of an Article Processing Charge of \$800 for non-members with discounts

About Traditional Publishing Option
Authors who select a Traditional Publishing Option will complete the IEEE Copyright Form, which will transfer ownership of the copyright rights in the work to the IEEE. In other words, the IEEE becomes owner of the paper when the author signs, dates and submits a corresponding IEEE Copyright Form. Authors

Post acceptance – Authors publishing open access may choose between CC-BY or CC-BY NC-ND

After acceptance, authors will be prompted to choose their license using the Electronic Copyright Form (eCF).

- Authors publishing open access may choose between:
 - A CC-BY 4.0 license (in which the author retains copyright and the article is published open access).
 - A CC-BY NC-ND license (a more restrictive license than CC-BY in that the article may not be reused for commercial purposes, nor may the article be changed in any way.)

Authors should confirm any license restrictions set by the institution.

CC BY 4.0
is preferred

Open Access Publishing Agreements

Creative Commons Attribution (CC BY)

- Author retains copyright
- Attribution required
- Commercial use permitted
- Changes permitted

Creative Commons Attribution, NonCommercial, No Derivatives (CCBY-NC-ND)

- Author retains copyright
- Attribution required
- Commercial use not permitted
- Changes not permitted

RightsLink for Scientific Communications (RLSC) in TouchFree

- All open access charges are handled through CCC RLSC.
- **Authors do not need to request funding through RLSC (in TouchFree workflow)** as this is done when a match is made between the manuscript metadata and the institution's profile in RLSC
- Institutional profiles are matched using author-provided affiliation data including email domains and/or Ringgold IDs.

Approving requests

The author receives an email when the request is approved or denied by the administrators of the agreement.

More Open Science Initiatives from IEEE

IEEE Supports Open Science and Reproducible Research

In addition to the full-text article, users also want access to data and research artifacts to try to reproduce the results and see if the hypothesis holds. So IEEE introduced:

- **Code Ocean** – Allows authors to publish code or algorithms associated with research articles in a computable environment and linked to IEEE *Xplore*. Authors can upload code free of charge and users can access code without a subscription.
- **IEEE DataPort** – Enables authors to publish large data sets associated with their research. **Institutional subscription options now available** offering many benefits that help institutions comply with funding agency requirements and maintain best practices for data management, storage, while providing other researchers with access to your data.
- **TechRxiv** – IEEE launched a new Preprint Server for Engineering and Technology, a service that lets authors post early and fully open versions of their articles, prior to peer review and prior to being published.

These enhancements improve the extent we can help researchers communicate the value of their research by facilitating the communication and availability of their research findings online.

How IEEE Can Help

More IEEE Tools for Authors

Get your article ready for submission quickly with help from IEEE Author Tools

► **IEEE Author Center's Support Tools:**

- Find the right periodical or conference for your research with the **IEEE Publication Recommender**
- Directly find and load the template for the publication you are planning to submit to by using the **IEEE Template Selector**
- Speed up the article submission process by validating your LaTeX files with the **IEEE LaTeX Analyzer**
- Verify your reference list with the **IEEE Reference Preparation Assistant**
- Test if your article will display properly in the IEEE *Xplore*® Digital Library with the **IEEE PDF Checker**

Improve your references before submitting your article for peer review.

Receive a correctly formatted reference list in IEEE style by pasting your references or uploading your references or article. The following file formats can be uploaded:

- Word: .docx, .doc
- LaTeX: .tex, .bbl (in UTF-8 format)
- Text: .txt (in UTF-8 format)

For best results, each reference should be numbered and separated by a line break.

You will receive a ZIP package containing your corrected references plus a report with notes and recommended steps. You can download this ZIP package or have it emailed.

Copy and paste text

OR

[Upload](#) your references or your entire article. You may also drag and drop a file anywhere on this page.

More Resources from IEEE

- IEEE has a variety of live and on-demand webinars available to authors, IEEE *Xplore* users, universities and technology organizations
- Other available webinars provide tips and best practices to help researchers stay up to date by using intuitive new tools delivered by IEEE *Xplore*. We also offer resources to help authors get published and share their research with the technical community.
- Below is a link to register for upcoming and recorded sessions. All are free to attend and we encourage you to share this information with your colleagues.

The screenshot shows the IEEE Xplore website interface. At the top, there's a navigation bar with links for 'Content in IEEE Xplore', 'Subscription Options', 'About', 'Resources', and 'What's New'. A search icon and a 'Learn More' button are also present. Below the navigation bar, there's a large banner with the word 'WEBINAR' in white text over a background image of hands typing on a keyboard. To the left of the banner, there's a sidebar with a list of links: '+ eBooks', '+ Partner Content in IEEE Xplore', '+ Discovery Solutions for Industry', and '+ Open Science Solutions'. Below this list is a 'Next Steps' section with links: 'Contact Us', 'Request a Quote', 'Request a Free Organizational Trial', and 'Request a Subscription for your Organization'. To the right of the banner, there's a paragraph of text explaining the variety of live and on-demand webinars available to help universities and technology organizations adapt their curriculums and research strategies. Below this paragraph, there's a section titled 'Upcoming Webinars' with a link to 'IEEE Authorship and Open Access Symposium: Tips and Best Practices to Get Published from IEEE'. The date and time for the webinar are listed as 'Date: Wednesday, 30 March 2022' and 'Time: 3:00 p.m. CEST / 5:00 p.m. UAE / 9:00 a.m. ET'.

WEBINAR

IEEE has a variety of live and on-demand webinars available to help universities and technology organizations adapt their curriculums and research strategies to support distance learning and remote work environments. Others provide tips and best practices to help researchers stay up to date, optimize research time, and deliver precise results by using intuitive new tools delivered by IEEE Xplore. In addition, IEEE offers resources to help authors get published and share their research with the technical community and partners with leading engineering publications, conferences, and media groups to sponsor webinars and virtual events on emerging technologies and trending fields of research.

Below are the links to register for upcoming and recorded sessions. All are free to attend and we encourage you to share this information with your colleagues.
